

Zap-a-Mole

The IPS game is used with 1 IPS system including 10 lamps (not included)

The classic arcade game, but interactive and airtight!

The classic "mole" arcade game has been brought back to life with Interactive Playsystems! Try to hit the mole as often as possible to score points and beat your opponent. The ideal feature of this version is that it is airtight. This means you can place the Zap a Mole anywhere, as it only needs to be inflated once before use and does not need to be constantly connected to a blower.

With this product, you can vary the themes. These sheets can be ordered separately (\$199 per sheet). You can choose from the following themes:
