- Up to 30 lamps can be linked

Interactive Play Systems

With the IPS Smart Edition, you get the basics to combine endlessly with different attributes. IPS (Interactive Playsystems) is a unique combination of light, sound and game. Interactive spots are wirelessly connected to the scoreboard with which challenging games can be played against each other. Because the spots are hit-sensitive, they can be used multifunctionally. With not only your own hands but also all kinds of sports equipment such as soccer, basketball, bow & arrow and Nerf guns. With an IPS set, you can go in all directions!

Mobile, handy and complete

You can put the super handy mobile IPS case somewhere in no time. IPS can be used perfectly with inflatables, sports equipment, educational purposes and indoor play parks. The IPS set includes a scoreboard with a simple control panel, 10 HIT spots, a charger for the spots and the scoreboard in a handy transport case.

Specifications and Warranty

The IPS set is completely wireless and has Li-Ion batteries in the scoreboard and the spots. These are rechargeable and can last up to 16 hours of active playtime. There is an RF connection between the scoreboard and the spots. The standard set consists of 10 spots, but you can add more up to a maximum of 30 spots. The IPS set comes with a 1-year warranty.

Buy this multifunctional IPS set and give your customers the day of their lives!
