

Champagne bottle

Mega-sized champagne bottle with balloon 'bubbles'

Party time! A birthday, anniversary or other festivity: a party and balloons complement each other. With this enormous champagne bottle (standing 7 meters tall) both party necessities are combined, because this bottle serves as a balloon release! It can hold no less than 550 colorful helium-filled balloons, which can all be released in one go. No champagne shower when this cork is popped, but brightly colored balloons 'bubble' out of the wide (90 cm) bottle neck. This is about as festive as it gets!

Setting it up is also a party

Because this giant champagne bottle sets up within 10 minutes (preferably by two persons, but one can do it too), if the clear instructions are followed, this is almost a party in itself. Why? Because the blower we include takes care of most of the work. Also conveniently provided: transport and fastening materials.
